### WANT TO REPORT A BAD DATE?

Your reports of Bad Dates can warn others.

Ask the person who gave you this sheet where you can report a Bad Date. OR you can email us at:

[HarmReductionBoston@gmail.com](mailto:HarmReductionBoston@gmail.com)

**1**  
Wear shoes that you can run in.

**2**  
Wear clothing that doesn't have to be removed for sex.

**3**  
Ask a buddy to switch off with you: One of you can be a date while the other is a lookout. If no friend is around, you can still yell out that you'll be back in a few. This way, your client thinks that someone is expecting you back soon.

**4**  
Be careful with jewelry. Wear small earrings, clip-ons, or no earrings at all. Don't wear anything around your neck that could be used to strangle you, like necklaces.

**5**  
Using female condoms gives you more control. You can put one in before leaving the house and working. You can use a female condom up to six hours after inserting it. This is a good option for dealing with men who are resistant to using a regular male condom.

**6**  
Brush your teeth, douche, or use enemas AFTER work, if at all, NOT before or between clients. Tiny cuts or scrapes caused by the douche, enema, or toothbrush make you more vulnerable to disease.
